

School of Electronic Engineering

CB54: Machine Learning Algorithms for EM Wave Scattering Problems

Project Portfolio

Anthony James McElwee
ID Number: 20211330

August 2023

MEng in Electronic and Computer Engineering

Supervised by Dr Conor Brennan

Declaration

I hereby declare that, except where otherwise indicated, this document is entirely my own work and has not been submitted in whole or in part to any other university.

Signed: Anthony James Mc Elwee

Date: 2023/08/20

Acknowledgements

The student would like to thank Dr Conor Brennan for his time and patience spent on video calls during the duration of the project and the advice offered at various junctions. The student would also like to acknowledge his family for the support he received during the duration of the programme.

Contents

Final Project Report
IEEE Conference Paper
Literature Review (Appendix A)
Project Design Plan (Appendix B)
Project Research Log (Appendix C)
Project Design & Implementation (Appendix D)
Testing & Results (Appendix E)
Source Code Listing (Appendix F)
Risk Assignment (Appendix G)

Note: Appendices have cover pages with tables of contents and pagination referring to their titles.
